

LEAK DOCTOR

Leak Doctor is a multi-functional oil additive especially suitable for use in high mileage or older vehicles.

The special additives work in all oils to stop oil leakage caused by hard and brittle old seals, and help recover "like new" performance.

Leak Doctor also improves oil viscosity at high temperatures, and contains soluble molybdenum to reduce engine wear.

AUTOMOTIVE APPLICATIONS

- Reduces oil leaks by softening and expanding old seals.
- Improves lubrication.
- Reduces oil consumption and exhaust smoke in worn motors.
- Increases engine compression.
- Reduces wear.
- Cushions regular impact areas such as tappets, cams and gears.

APPLICATION INSTRUCTIONS

For Engines:

Change oil if required. Run the engine until it reaches operating temperature, then add a full 250ml tin of **Spanjaard Leak Doctor**.

TYPICAL PROPERTIES

Density at 20°C, g/cm ³	0,87
Viscosity at 25°C, cP	3000
Colour	brown/green
Flash point °C, C O C	185
Pour point °C	-6
Neutralisation Number D974	1,4
Timken OK load D2782,kg	16
Copper Corrosion D130	Pass

HANDLING AND STORAGE

Store under cover. Keep out of reach of children.

PACKAGING

250ml tin.

CP/mg/Leak Doctor – June 2016
