

POWER STEERING BOOSTER

Spanjaard Power Steering Booster replenishes additives in old power steering fluid, extending useful life and ensuring smooth and optimal functioning.

APPLICATION

- Excellent anti-wear properties provide additional protection for components.
- Aids in reduction of oil thickening.
- Aids in prevention of deposit formation.
- Improves friction performance for a smoother ride.
- Compatible with all power steering fluids.
- Safe on all seals and contains no harmful solvents.

APPLICATION INSTRUCTIONS

Drain 250ml of the old fluid.

Add full contents of the Power Steering Booster tin (250ml) directly to the power steering fluid reservoir.

TYPICAL PROPERTIES

Colour	Clear light brown liquid
Density, (25°C), g/ml	0,845
Viscosity (40°C),cSt	19-24
